

February 14, 2023

The Honorable Joseph R. Biden, Jr.
The President of the United States
The White House
1600 Pennsylvania Avenue, NW
Washington, D.C. 20006

Dear President Biden,

We, the undersigned 55 peace, national security, climate justice, racial justice, faith, and anti-poverty groups write to urge you to present a budget request to Congress for Fiscal Year 2024 that diverts some of our super-sized Pentagon budget to better meet the needs of the American people.

While we are deeply concerned about reports of a secret deal among some Members of Congress to roll back the entire federal budget, we can not and must not defend the status quo when it comes to the Pentagon budget.

This year's military budget - \$858 billion - is the second-highest since World War II. It is [ten times](#) Russia's military budget and more than 2.5 times that of China. It is [greater than](#) the next 9 countries combined. About [\\$452 billion](#) of it will go straight into the pockets of big corporate weapons contractors. Last year, Congress added \$45 billion on top of what your administration requested - an amount [greater than](#) the entire climate investment portion of the Inflation Reduction Act. It will not take many more years for our military budget to hit the \$1 trillion mark, an astonishing sum given the Pentagon has never been able to pass an audit or properly account for the billions it already receives.

This is why we urge you to request a lower military budget this year. We reject recent calls to roll back the entire federal budget because we can and should be spending more on meeting human needs and addressing the climate emergency through a just transition from fossil fuels and support to communities on the frontlines of the climate crisis. One of the many ways we can accomplish this is by spending less on the wasteful Pentagon budget. We reject pouring our dollars into outdated ships, malfunctioning planes, or record-breaking contractor CEO salaries while everyday people remain hungry, unhoused, in need of adequate healthcare, or seeking a living wage.

Please kick off this year's budget process by putting forward a proposal that addresses our most urgent funding priorities by giving the Pentagon a direly-needed trim.
