

**What are the tools of Israeli lawfare used against Palestinians?  
How can one be an effective prophet for justice in the Holy Land?**

In Israel, East Jerusalem, and the West Bank, the law is whatever Israel deems to be in the best interest of Jewish Israelis, which is often to the detriment of Palestinians. In this, Israel violates the civil and human rights of Palestinians as a matter of standard policy.

*The Law and the Prophets* explains the mechanisms of control, some violent and some nonviolent, that have been perfected through decades of civil and military rule of Palestinians.

The documentary also introduces us to a few of the brave and determined individuals—prophets—who struggle to expose the abuses, reveal how the system operates, and point the way toward a more just society.
